💼 Experience

04/2019 – current

Data Scientist | Business Integration Partners Spa
Milan, Italy
x.Tech is a Center of Excellence focused on innovation and consulting services concerning Advanced Analytics, Data Science and Big Data, RPA, and Networking.

05/2018 – 04/2019

Data Scientist | Capgemini
Milan, Italy
2° project – 8 months: Major Italian Bank. Implementing scalable Python-based engines to automate data ingestion and transformation activities. We worked in a Big Data environment using Pyspark and we reported directly to the client.
Attended Deep Learning specialization on Coursera and started using tools such as TensorFlow and Keras.
1° project – 4 months: Major Italian Bank. Big data and analytics project where I was responsible for Data Quality development within the Data Warehouse. In charge of testing performances and presenting the outcome to the client.

04/2017 – 09/2017

Operations Analyst | Auto1 Group
Milan, Italy
Active role in cars evaluation during purchase phase. Quantitative analysis for business improvement opportunities and presenting them to the stakeholders.
